

"The team at Brookbanks is absolutely committed to the delivery of our high quality, value driven, services for the benefit of our clients and the wider communities where we work. We will support our client's businesses with highly skilled and enthusiastic staff having a common goal of ensuring project success."

Andrew Thorley, Managing Director.

THE ROLE

This role represents an exciting opportunity for the right candidate to build and develop an air quality and acoustics sub-team within our strategic Highways and Environment work group. The successful candidate will be highly motivated, with a desire to develop their professional career.

PREFERRED SKILLS/EXPERIENCE

The successful candidate will have a relevant science-based air quality or environmental sciences degree and ideally be a Full member of the Institution of Environmental Sciences and Institute of Air Quality Management. Knowledge of noise and vibration assessments for planning applications is also highly desirable.

DESIRABLE SKILLS/ASPIRATIONS

Successful candidates will be able to demonstrate at least five years of experience in a consultancy setting, ideally working with house builders/land promoters in a residential or mixed-use setting. Use of air dispersion modelling software including the ADMS-Roads, ADMS 5 and SoundPLAN software packages.

Knowledge of air quality monitoring and the design and management of air quality monitoring strategies.

PACKAGE

The salary will be commensurate with experience, along with other employee benefits.

LOCATION

Balanced home and office working.

HOW TO APPLY

Please send your CV and Covering Letter to Amy Taylor at amy.taylor@brookbanks.com

Senior/Principal Air Quality and Acoustics Consultant

THE COMPANY

We are a leading Master Developer and Development Consultant, providing specialist support to residential, commercial, retail and infrastructure schemes.

We work closely with developers, land promoters and owners of land, property and infrastructure projects across the UK and Europe to plan, design, cost and deliver their schemes.

Our teams have a valued reputation of successfully driving projects through the full development life cycle to deliver additional value and create great outcomes for our clients. Our clients include many of the UK's leading blue chip Residential (traditional and MMC), Commercial and Retail property developers, Landowners and Promoters, Mining companies, listed financial institutions and both local & Government agencies.
