

"The team at Brookbanks is absolutely committed to the delivery of our high quality, value driven services for the benefit of our clients and the wider communities where we work. We will support our client's businesses with highly skilled and enthusiastic staff having a common goal of ensuring project success."

Paul Boileau, Executive Chairman

THE COMPANY

SVM (a Brookbanks company) is our Mechanical and Electrical Engineering brand, with a renowned team of award-winning, energy-centric building services specialists. We are a creative team of engineers, designers and technical specialists, providing innovative solutions to complex engineering and design challenges within buildings. We work alongside the other Brookbanks Groups to drive value on our clients projects.

THE ROLE

- Receiving and understanding the requirements of the design task
 - Undertaking design calculations
- Developing design proposals at sketch, detail design and production stages
- Liaison with client's other members of the design team, suppliers and contractors as necessary.
 - Preparing tender documentation
 - Preparing drawings using AutoCAD
 - Knowledge with the use of Revit / BIM
 - Undertaking site surveys/inspections
 - Preparing reports
 - Complying with SVM QA and other procedures
- Providing guidance to junior engineers and draughts people as necessary

DEVELOPMENT/PACKAGE

The financial package will be commensurate with experience

LOCATION

Hybrid working. Working from any of our offices
