

Powered by our people to deliver for our clients

Principal / Senior Civil Engineer

Brookbanks is looking for enthusiastic, dynamic, and motivated individuals to join the company as Principal and Senior Civil Engineers. The successful candidate will design a variety of infrastructure schemes on some of the largest and most prestigious developments in the UK.

The Role

Principal - Leading the design and delivery of major civil infrastructure projects, providing expert consultation and technical leadership, and ensuring design and operational excellence in all civil engineering activities

Senior - Designing and supervising civil engineering projects such as roads, bridges, and water systems, ensuring that projects meet environmental, safety, and structural standards, and coordinating with clients and other engineers for seamless project execution

- Must have experience of producing preliminary and detailed Highway design (s38 / s278 Highways Act)
- The ability to design Drainage (s104 / s98 Water Act) both strategic and detailed, foul pumping stations, SuDS, flow control structures and balancing facilities is essential
- Must have experience of designing Residential and Commercial external works design including earthworks assessments
- Experience of producing technical reports, assessments, statements, and fee proposals is required
- Experience in providing technical leadership and mentoring to engineers and technicians within the team is required
- Candidate must have the ability to oversee project delivery from proposal to practical completion, ensuring quality, cost, and time objectives are met
- Experience of managing and cultivating client relationships and coordinating with stakeholders is desired
- Ensuring compliance with relevant standards, policies, and legislation (e.g. CDM and UK Building Regulations) is essential
- Strong understanding of design software such as AutoCAD and MicroDrainage (InfoDrainage) is essential
- Excellent communication, interpersonal, and organisational skills are required
- Qualifications:
 - ▲ Minimum HND/C in Civil Engineering
 - ▲ Degree in Civil Engineering or related discipline desirable
 - ▲ Chartered with ICE or equivalent body is desirable

The Package

The financial package will be commensurate with experience

The Location

This role will be based at our Birmingham, Bristol, Exeter or Ringwood offices, with WFH in accordance with our Hybrid working policy

How To Apply

Please send your CV and Covering Letter to our Recruitment team at recruitment@brookbanks.com, with the subject line 'Principal / Senior Civil Engineer application'

The Company

Expert technical, commercial and development consultants operating across all types of projects nationally.

Specialist advisors, with a track record of success, driven to support our clients' projects.

Our Development Partner (Master Developer) service is the only one of its kind in the UK. Led by ex-home builders and commercial developers to deliver our clients major development sites.

We are built to be different; we are built to guide our clients to success

[The Brookbanks Difference](#)

Working at Brookbanks is about leading innovation, creating great outcomes and driving change.

Our work is challenging, rewarding and ever-changing, but we wouldn't be where we are today if we weren't one of the best in our field and a great place to work.

Brookbanks is built on loyalty, wellbeing, sustainability, security and support; we take care of our people just as we take care of our clients.
