

Principal Utilities Consultant

Brookbanks operates nationwide, providing integrated and holistic consultancy services for major infrastructure and development schemes. We have a reputation for designing and delivering complex mixed-use, major residential, and commercial build projects. Projects range from £5m to £500m.

As a UK, privately owned consultancy, we offer autonomy, flexibility and trust. Our people are empowered and supported to challenge the status quo, implement their ideas and make a real impact.

As Principal Utilities Consultant you will be...

Working on a wide variety of large-scale residential, commercial, and infrastructure developments, providing leadership in utilities planning, design coordination, and delivery. You will act as a key contact for clients, overseeing strategy and utility engagement from feasibility through to construction.

This includes:

- Leading the delivery of utility strategies, impact assessments, and diversion schemes
- Manage new connections, diversions, disconnections, and capacity upgrades
- Supporting land promotion and early masterplanning with utility feasibility advice
- Delivering utility budgets, programming, and procurement across project lifecycles
- Managing utility design approvals, legal agreements
- Advising clients on cost, programme, and risk related to utility works
- Driving collaboration across disciplines including civils, transport, drainage, and planning
- Mentoring junior team members and providing technical leadership
- Supporting business development, bids, and client strategies

What's in it for you at Brookbanks?

Autonomy: you'll have the freedom to work in your own way, create change and shape the company

Innovation: free from rigid processes or layers of hierarchy, we encourage fresh thinking and an entrepreneurial mindset

Personable environment: as a UK, privately-owned consultancy, you'll be more than just a number

Roadmap for progression: we're expanding into new sectors and regions, ensuring we can honour your progression

Personal development: we provide the opportunity to develop cross-disciplinary expertise, funded chartership and professional development

Hybrid and flexing working: we trust you to decide how you work best and endeavour to accommodate your personal circumstances

Scale and scope: you'll be part of many of the UK's most prestigious projects

What we look for:

- A highly experienced Utilities Consultant with a strong background in development-led infrastructure
- Proven delivery of utility strategies and coordination on complex
- Excellent communication, stakeholder management, and client-facing skills
- Experience working in consultancy or client-side environments
- Proactive, commercially aware, and solutions-focused mindset
- Ability to work independently and lead projects from feasibility through delivery

Location & How to Apply

Flexible, hybrid working based from any of our offices. To learn more about the role or to apply, please send your CV to Zoe Evans, Head of Talent at recruitment@brookbanks.com

The Company

Expert technical, commercial and development consultants operating across all types of projects nationally.

Specialist advisors, with a track record of success, driven to support our clients' projects.

Our Development Partner (Master Developer) service is the only one of its kind in the UK. Led by ex-home builders and commercial developers to deliver our clients major development sites.

We are built to be different; we are built to guide our clients to success

[The Brookbanks Difference](#)

Working at Brookbanks is about leading innovation, creating great outcomes and driving change.

Our work is challenging, rewarding and ever-changing, but we wouldn't be where we are today if we weren't one of the best in our field and a great place to work.

Brookbanks is built on loyalty, wellbeing, sustainability, security and support; we take care of our people just as we take care of our clients.
